

CS-DRMS User Countries

The Commonwealth Secretariat Debt Recording and Management System (CS-DRMS), available in both English and French versions, is currently deployed in 59 countries within as well as outside the Commonwealth regions. The software is licensed free of charge to Commonwealth countries and as part of a collaboration agreement with l'Organisation Internationale de la Francophonie (OIF), member countries of OIF also get the software free. Other countries purchase the software through Crown Agents, the official distributor of CS-DRMS outside the Commonwealth.
