

## Crown Agents course, Introduction to CS-DRMS, 11th - 22nd May 2009

Crown Agents will again be running specialised training in the Commonwealth Secretariat Debt Recording and Management System (CS-DRMS 2000+) this year in collaboration with the Commonwealth Secretariat at our international management training centre in Worthing, UK. In response to client feedback Crown Agents have extended the programme of training. Instead of the three-week Comprehensive User Training in CS-DRMS 2000+ course in October Crown Agents are running two separate two-week courses Introduction to CS-DRMS (11th to 22nd May) and Advanced CS-DRMS (5th to 16th October). This will provide users more detailed training in both CS-DRMS fundamentals and in the more advanced topics such as debt analysis techniques.

CS-DRMS 2000+ provides users a comprehensive range of features through the various modules that comprise the software suite:

- External Debt Recording (loans and securities);
- Domestic Debt Recording (loans and securities);
- Debt Analysis and Portfolio Review;
- Disbursements and Projects;
- Report Writer; and
- Securities Auction System

The Introduction to CS-DRMS course will focus on the accurate recording of loans and securities using the External and Domestic Debt Recording modules to enable countries compile a comprehensive database of debt obligations. It will be particularly beneficial for existing users who have not received formal training as well as those requiring refresher training and users new to CS-DRMS. No prior exposure to CS-DRMS is therefore required.

The Advanced CS-DRMS course in October will focus on the Debt Analysis and Portfolio Review, Disbursements and Projects and the Securities Auction System as well as the more complex recording features to allow users to harness the system's full functionality.

If you book on both courses Crown Agents can offer a 10% discount on attendance at the Advanced CS-DRMS course.
